1. Request Headquarters Support Division provide Contracting Officer Support to permit the INSCOM CENTER LANE Project Manager to enter proposal and contract negotiations that will culminate in the issuance of a classified contract.

2. The sensitivity, compartmented nature, and complexity of the INSCOM CENTER LANE Project (ICLP) will require a separate security briefing and a discussion of ICLP technology. It is imperative that a contract be issued NLT 27 July 1984, so work may begin on 1 August 1984; therefore request immediate action to designate a contracting officer to support ICLP NLT 12 June 1984.
